

# Game-changer

Idiom of the month

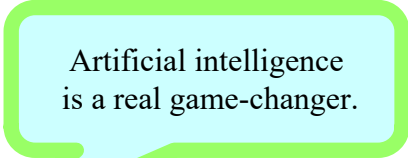

a cura di Sarah Gudgeon

Edizioni marzo 2025

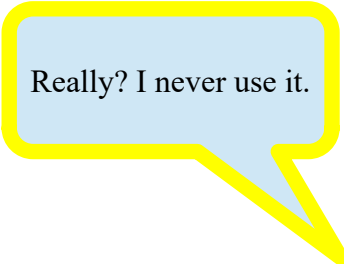

## 1. Write five more ways in which Artificial Intelligence can help with your studies.

1. Brainstorming
2. \_\_\_\_\_
3. \_\_\_\_\_
4. \_\_\_\_\_
5. \_\_\_\_\_
6. \_\_\_\_\_

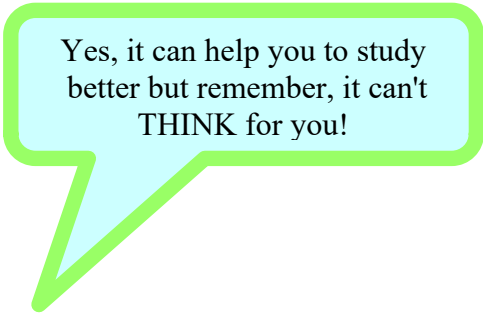

## 2a. Read

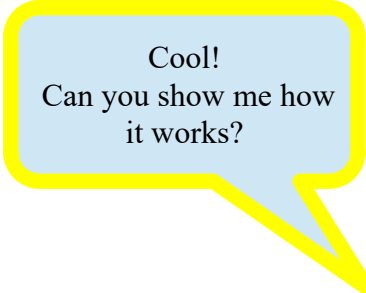

Artificial intelligence is a real game-changer.

Really? I never use it.

Yes, it can help you to study better but remember, it can't **THINK** for you!

Cool!  
Can you show me how it works?

**2b. Complete with the idiom of the month.**

AI is a real \_\_\_\_\_ for students who need extra help outside class.

*Artificial intelligence can be a game-changer if you use it correctly as a study tool and not as a substitute for study.*

**3a. Read this comment from Marc on the school website:**

“Learning how to take notes properly in class was the biggest game-changer for me. Having clear notes makes it really easy for me to revise for my exams.”

**3b. What has been the biggest game-changer for you since you started high school?**

Max 100 words.

**4. Oracy skills Debate the following motion:**

*Artificial Intelligence is the biggest game-changer in education since the invention of the Internet.*

**Team A: Argue in favour of this statement**

**Team B: Argue against this statement**

**Teacher's Notes**

1. Sample answer: finding resources; translating texts; checking grammar, spelling and punctuation; representing data visually; generating practice questions for exam revision; generating a homework schedule.
2. AI is a real game-changer for students who need extra help outside class.
3. b. The biggest game-changer for me has been learning how to do mind maps. At the end of every chapter, I summarise all the key points and it really helps me to remember everything. I never feel overwhelmed before a big test because I can just go back and review my mind maps.
4. Review language for debates before you put students into teams. Consider nominating a chairperson to moderate the debate. Set a time limit.
