Artificial intelligence is a new tool that students can _____ into their study programmes.

When you integrate something, it means that you add it to something that already exists. That means that you can add Artificial Intelligence to your study programme but you cannot replace study with AI.

4. a) What are the advantages and disadvantages of integrating AI into your regular study programme?

Brainstorm with a partner.

4. b) Ask that question to AI. Do you agree with the answer given?

Why/ Why not?

Teacher's Notes

1. Sample answer: the Internet; a dictionary; Artificial Intelligence; a private tutor; the library
2. Sample answer: If I could only use one study tool for the rest of high school, I would use AI because I think that it will continue to grow and offer more learning opportunities. I can find everything I need in one place and maximise my learning time.
3. Artificial Intelligence is a new tool that students can integrate into their study programmes.
4. a) Sample answer:
Advantages: quick access to information, great study tool, cheap way to have a 'tutor'
Disadvantages: makes students lazy, doesn't develop critical thinking skills, allows students to copy.
4. b) Answers may vary.
