

CLIL

Let's play with a dichotomous key!

Dichotomous keys are like a "questions path" to classify living beings. They're fun to use. Would you like to try?

Let's do it together:

Look at this funny animal! Can you find out the class of vertebrates it belongs to?

CHECK

■ **Unscramble the words and match each one to a definition**

- a. DEKNA
- b. TEW
- c. KISN
- 1. covered with water
- 2. without covering
- 3. covers our body
